

Check list

During submission of the manuscript, authors are expected to check the following to avoid rejection of the manuscript.

- Is your manuscript drafted according to the instruction to authors and should be typed in MS word but not as PDF or any other file?
- Is your manuscript has statistical analysis (for Research paper)?
- Spell out abbreviations on first use, followed by the abbreviation in parentheses, e.g., Butylated Hydroxy Toluene (BHT).
- Does our manuscript have abstract, key words? Abstract should not have any subheadings?
- All tables and figures should be at respective places, should be numbered consequently and should be cited or referred in the text.
- Each graph, figures and tables should have suitable title and appropriate legends. Foot notes (if necessary) should be present.
- X- axis and Y-axis of all graphs should have its name or label or title.
- Complete copy right form with the signature of the authors. You can down load the empty copy right form [here](#).
- Figures should be of high resolution and good clarity.
- Scientific name of plants, animals, microorganisms etc should be italicized.
- References should be as per Vancouver style. For details visit instructions to authors or [click here](#).
- All references cited in the text should be in the reference section according to the cited numerical order.
- All language used should be accurate and precise. Active voice should be preferably used in most of the sentences.

If you do not understand any of the above kindly drop an email. [Click here](#) for our email.
