

# Time Line for the Manuscript Publishing Process

(The following is the time line for the Research /Review/Case study manuscript for processing towards publishing in International Journal of Pharma and Bio Sciences ([www.ijpbs.net](http://www.ijpbs.net)))

## Fast and Rapid Publishing

Author Submits the Manuscript with copy right form

Journal office sends manuscript number to the author on the same or day. (If author did not receive the manuscript number, then they can call or email)

Preliminary Screening

EDITOR DESK DECISION

Editor in chief/Assistant Editor and Managing Editor does preliminary screening on the Manuscript

Accepted

Rejected

The Manuscript will be send to Peer reviewers . Visit our [Peer review policy](#) for details.

Author resubmits the manuscript with requested modification/corrections which then follows screening/peer review process.

Duration: 1 week (approx.)  
(Also depends on how fast author replies for our mail)

Within 1 week we will send the formatted galley proof with plagiarism/minor technical, scientific, copy editing and linguistic comments to the author

Author sends the corrected and rectified galley proof to the journal

**Final Acceptance Decision**

[Final acceptance of Revised Manuscript]

Journal office sends EPrint (Final publishing copy) to the author

Manuscript would be listed/published in the Forthcoming Issue. Once the manuscript is published, email/SMS alert would be sent to the author.

**Duration: 7 to 10 days**  
(Also depends on how fast author Replies)

**Duration: 3 - 4 days**  
(approx.)

**For the above normal processing**, we try to take 3 to 3.5 weeks (approx) to complete the process for publishing.

We try to reduce this time further and it limits to the response and arrival of reviewer comments and author reply for those comments.

Further delay would happen if author delay in replying to our emails.

Author can check the status of their manuscript anytime in,

[http://www.ijpbs.net/search\\_manuscript.php](http://www.ijpbs.net/search_manuscript.php)

In the above link they can see the waiting date. This date represents the dead line either for authors or for us. So if the delay happens from our side, author can call or email the editor or whatsapp. Please Visit '[Contact](#)' for our contacts.

**For ULTRA FAST process,**

(With less time (approx. 1 week) your paper will be peer revised by minimum Reviewers and paid reviewers and finalised for publishing, provided you send all the required documents and rectify all our reviewer comments without delay.)

This process is specially for author who wants to get their paper published very fast (faster than the normal process). In this process once we receive all documents from the author, we try to complete review process (on special request to the reviewer), galley proofing, final Eprint and publishing within 2 week (approx.). For this editor takes special care and authors are requested to have track in coordination with editor either by phone or whatsapp. Even this process is also depends upon how fast our reviewer response and author rectifies those comments. But we guarantee fast publication once peer review is complete.
