

# Time Line for the Manuscript Publishing Process

(The following is the time line for the Research /Review/Case study manuscript for processing towards publishing in International Journal of Pharma and Bio Sciences ([www.ijpbs.net](http://www.ijpbs.net)))

## Fast and Rapid Publishing

Author Submits the Manuscript with copy right form

Journal office sends manuscript number to the author on the same or day. (If author did not receive the manuscript number, then can call or email to Editor)

Screening/Peer Review

Editor/Assistant Editor does preliminary screening on the Manuscript.

Accepted

Rejected

The Manuscript will be send to 3 reviewers including 1 from Editorial Board member and English reviewer for English Evaluation.

Author resubmits the manuscript with requested modification/corrections which then follows screening/peer review process.

Acceptance Decision  
(Provisional Acceptance)

Payment of Fees

If accepted, the fee details will be sent along with the acceptance email.

**Duration: 7 to 10 days**

(Also depends on how fast author Replies)

Author sends the Fee

After receiving the fee, within 1-2 weeks we will send the formatted galley proof with plagiarism/minor technical, scientific and linguistic comments to the author

Author sends the corrected and rectified galley proof to the journal

Finalising and approving the Manuscript

Journal office sends EPrint (Final publishing copy) to the author

Manuscript would be listed/published in the Forthcoming Issue. Once the manuscript is published, email/SMS alert would be sent to the author.

Duration : 2 weeks  
(approx.)  
(Also depends on how fast  
author send fee and Replies)

Duration : 3 - 4 days  
(approx.)

**For the above normal processing**, we take 3 to 3.5 weeks (approx) to complete the process for publishing.

We try to reduce this time further and it limits to the arrival of reviewer comments.

Further delay would happen if author delay in replying to our emails.

Author can check the status of their manuscript anytime in,

[http://www.ijpbs.net/search\\_manuscript.php](http://www.ijpbs.net/search_manuscript.php)

In the above link they can see the waiting date. This date represents the dead line either for authors or for us. So if the delay happens from our side, author can call or email the editor or skype.

**For ULTRA FAST process,**

(Within 1week (approx.) your paper will be finalised for publishing, provided you send all the required documents and rectify all our reviewer comments without delay.)

This process is specially for author who wants to get their paper published very fast (faster than the normal process). In this process once we receive all document from the author, we try to complete review process (on special request to the reviewer), galley proofing, final Eprint and publishing within 1 week (approx.). For this editor takes special care and authors are requested to have track in coordination with editor either by phone or skype.
